

Cost-based rack armor

Overview

Designed specifically for this application, Rack Armor is a cost effective way to protect workers from head injuries. Both inside surfaces have adhesive to attach to the rack beam. Simply stick on cleaned and grease-free surfaces, includes cable ties to secure to rack. When workers retrieve materials or boxes from racking they often misjudge when it is safe to lift their heads. Made from ballistics grade plastic, the Rack Armour® outer shell is shaped to divert impact energy around the rack leg. Rack Armour® has been the world's best-selling polymer upright racking protector for over 20 years and is shown per install, to save tens of thousands of pounds in damage repair costs. Unlike traditional steel guards that transfer force into the rack and the floor, Rack Armour® protectors clip directly onto the. Heavy Duty Rack Protection, made to stop any forklift and prevent any damage to your frames.
