

Denmark Active Optical Device 200G

Overview

Splitting a single 200G QSFP-DD port into four independent 50GBASE-SR2 QSFP28 endpoints with lengths from 1m to 100m over OM4 multimode fiber, this AOC features integrated DDM/DOM, CDR signal recovery, and CMIS V4. GIGALIGHT provides a series of BER testing tools (checker) for 10G SFP+, 25G/32GFC SFP28, 40G QSFP+, 100G QSFP28, 200G QSFP56, and 200G/400G QSFP-DD optics. These AOC assemblies are QSFP DD MSA compliant, also backwards port compatible with existing QSFP modules and provide flexibility for. Get advice, answers, and solutions when you need them. For general questions, email us at hpestore.com *All pricing displayed is indicative; the reseller sets the final transactional price and may include other fees such as sales tax/VAT and shipping. It supports CDR bypass via I2C control. The AOC cable complies with IEEE 802. 3bm. The 200G QSFP56 Active Optical Cable (AOC) is a cutting-edge solution for short-range, high-speed data transfer applications.
