

Distribution box fxf

Overview

The CARELUX Distribution Box FX-JXF20 8001000200 with a pair of doors is an ideal electrical enclosure designed for secure and efficient management of electrical circuits. The surface-mounted damp room distributor is made of high-quality acrylic ester styrene acrylonitrile (ASA) and is therefore more weather-resistant than conventional ABS. For seamless consolidation, distribution, and management of power supply. Our range of distribution boards provides utmost safety as per international standards. Himel supplies affordable electrical offers that create value for. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. What do you need?

By checking the box, you consent to the collection and storage of the data you provide for the purpose of contacting and responding to your request in accordance with our privacy policy.
