

Fiber Optic Feeder Cable Price

Overview

Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Farnell's fibre optic cables are engineered to provide high-speed, high-bandwidth data transmission over long distances with minimal signal loss. Ideal for telecommunications, data centres and networking applications, our fibre optic cables are available in single-mode and multimode configurations. Fiber optic cable is designed to transmit data using light signals instead of electricity, making it faster, more secure, and immune to electromagnetic interference compared to traditional copper cables. Mouser offers inventory, pricing, & datasheets for Fiber Optic Cables.
