

How long is the warranty period for smart PDU products

Overview

All our products are shipped with a standard two-year warranty. Optional extended warranty support is also available for purchase; please contact our sales team or your distributor for information on plans and pricing. Our smart rack power distribution unit products typically come with a 12-month warranty, though the specific duration depends on the model and configuration. What is the difference between a metered/switched PDU and a smart PDU?

A smart PDU provides both real-time power usage data from metered PDU. APC By Schneider Electric Network Management Cards will have a two-year warranty repair or replace. In line with this. Long-Term Support: The manufacturer offers a 2-year warranty, providing the user with peace of mind and protection against any potential defects or issues that may arise during the product's lifespan. You can enter more than one number: just separate them with a comma or enter each number on its own line. Built with premium components to withstand 140°F (60°C) at full load. Hot-Swappable Controller with large OLED display. Remote power control, real-time energy metering, SNMP/Modbus integration.
