

Huawei EPON optical module ONU

Overview

Huawei OptiXstar S600E is a miniature GPON SFP ONU device that can be inserted into the SFP port of a camera or AP device to provide GPON access for the device to meet the requirements of video backhaul or wireless backhaul. • Suitable for installation on camera or AP equipment. • The GPON ONU Stick transceiver module is designed with a simpler and more cost-optimised architecture that ultimately reduces the number of devices deployed and managed in a network. It integrates bidirectional data transmission over one single-mode optical fibre. The GPON ONU Stick module provides. Langzhi China is a professional FTTH equipment manufacturer specializing in GPON/EPON OLT, ONU/ONT, and SFP modules compatible with Huawei & ZTE. The H802EPBD/H809EPBD is an 8-port EPON OLT interface board. It works together with the optical network unit (ONU) to provide EPON access services. Feature and Specifications EPON Service Board Comparison In the table, "Yes" indicates "supported" and "No" indicates "not supported". It supports power over fiber (PoF) cables to supply power to slave FTTR units (SFUs) and works with SFUs to provide gigabit.
