

Level 1 Distribution Box Protection Armenia

Overview

Level 1 SPD box surge discharge current ≥ 12 . Pepperl+Fuchs offers a comprehensive range of terminal boxes and junction boxes in types of protection Ex e (increased safety), Ex ia (intrinsic safety), Ex tb (dust protection by enclosure), and Ex op pr (protected optical radiation). Specialized Boxes: DBS (British standard), DX-AT (with ATS), GYFZ3 (industrial), and GYM1. This simply means that the voltage between the active conductors and the protective conductor must never be greater than the dielectric strength or electric strength of the equipment used. This also includes the control cabinet. The electric strength of the equipment is defined by the rated surge. Distribution boxes protect our electrical systems like bodyguards shield VIPs. When they fail, everything goes dark. Voltage protection level: $\leq 2500V$. The Level 1 surge protection device is designed to withstand high-current surges from direct lightning strikes or induced lightning.
