

Outdoor Cable Tray Solution

Overview

Our engineer's guide helps you choose the right outdoor cable tray based on environment, load, and corrosion resistance. Select HDG, Aluminum, or FRP with confidence. They can endure harsh weather conditions, such as rain, snow, wind, and extreme temperatures, guaranteeing that electrical installations stay safe and reliable. EMI/RFI Shielding: Metallic trays provide some shielding; for critical applications, consider covered or solid-bottom trays. Strong and durable – Made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. This engineered support system provides a structured pathway for power distribution, data transmission, and communication cables. Armorduct Systems are a UK manufacturer of steel cable management systems including cable trunking, tray, basket, floor boxes, power track & more. Wide range standard cable management products & bespoke CMS solutions designed and manufactured in house. Our company (founded in 2012) has quickly become an established player in the cable.
