

Single Austrian branch for sending and receiving

Overview

Austrian Post — officially known as Österreichische Post Aktiengesellschaft — is the company that provides postal services in Austria. It was established in 1999 following a split from the state-owned PTT agency Post und Telekom Austria AG, and is listed on the Vienna Stock Exchange. Send parcels 1 and letters, post returns, pick up shipments, withdraw money or copy documents: That and more is possible in the self-service zone 24 hours a day, 7 days a week. It is open around the clock, every day. Outside of opening hours, customers can use the 24-hour mail service. Foreign businesses can establish a branch in Austria as long as they are recorded in the Companies Register or a comparable register in their home country. This will give more than 6,000 households in the neighbourhood the opportunity to pick up or send their parcels around the clock. With digital solutions, you can conveniently prepare your items from home and drop them off flexibly at numerous locations.
