

Source manufacturer of high and low voltage complete sets of equipment in Norway

Overview

Nexans Norway AS is the leading supplier of power, telecoms, installation and heating cables in Norway, and is a world leader in offshore control cables and high-voltage submarine cable systems. Its products cover high voltage switch gear, box-type substation, low voltage switch gear, cable distribution box, power transformer and other fields. With factories in Halden, Langhus and Rognan, and over 1,600 employees across the country, we can. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand. Our products—such as circuit breakers, relays, and protectors—serve power, industry, and infrastructure sectors with safe, reliable, and eco-friendly equipment worldwide. Driven by. The long-term experience of Technologie Globale specialists allows us to supply our customers with the necessary low-voltage or high-voltage equipment in the shortest possible time, saving them money and time.
