

Xiaomi 10 Gigabit Router Fiber Optic Port

Overview

Accordingly, Xiaomi asserts that the new router is ready to split a fiber-optic cable's input between 4 2.5GB ports for an up to "dual LAN and dual WAN" network. It can do so with a choice between a 10Gb RJ-45 or a 10Gb SFP+ port. The first-gen device can support up to four 2. Fully prepared for 10 gigabit broadband upgrades, it delivers superior performance compared to gigabit routers for data-heavy devices and improves workflow efficiency for small. The new Xiaomi Router 10000 is expected to support the latest Wi-Fi 6 standard with improved transmission speeds and many new features. We expect the router to have a more powerful processor than the Qualcomm. First, I got 10Gbps for the same price as 1Gbps, not interested in discussions around why I want 10Gbps fiber and what I want to use it for. 4 person home with A LOT of streaming and gaming going on, and I work with video editing so send and receive big amounts of data every now and then. So, not. The Xiaomi Router 10000 delivers a tri-band 10 Gigabit high-speed network for a high-end intelligent experience.
